NEVER COMPROMISE CLARITY

## BETTER VISION BETTER RESULTS

STAY IN THE GAME WITHOUT INTERRUPTION

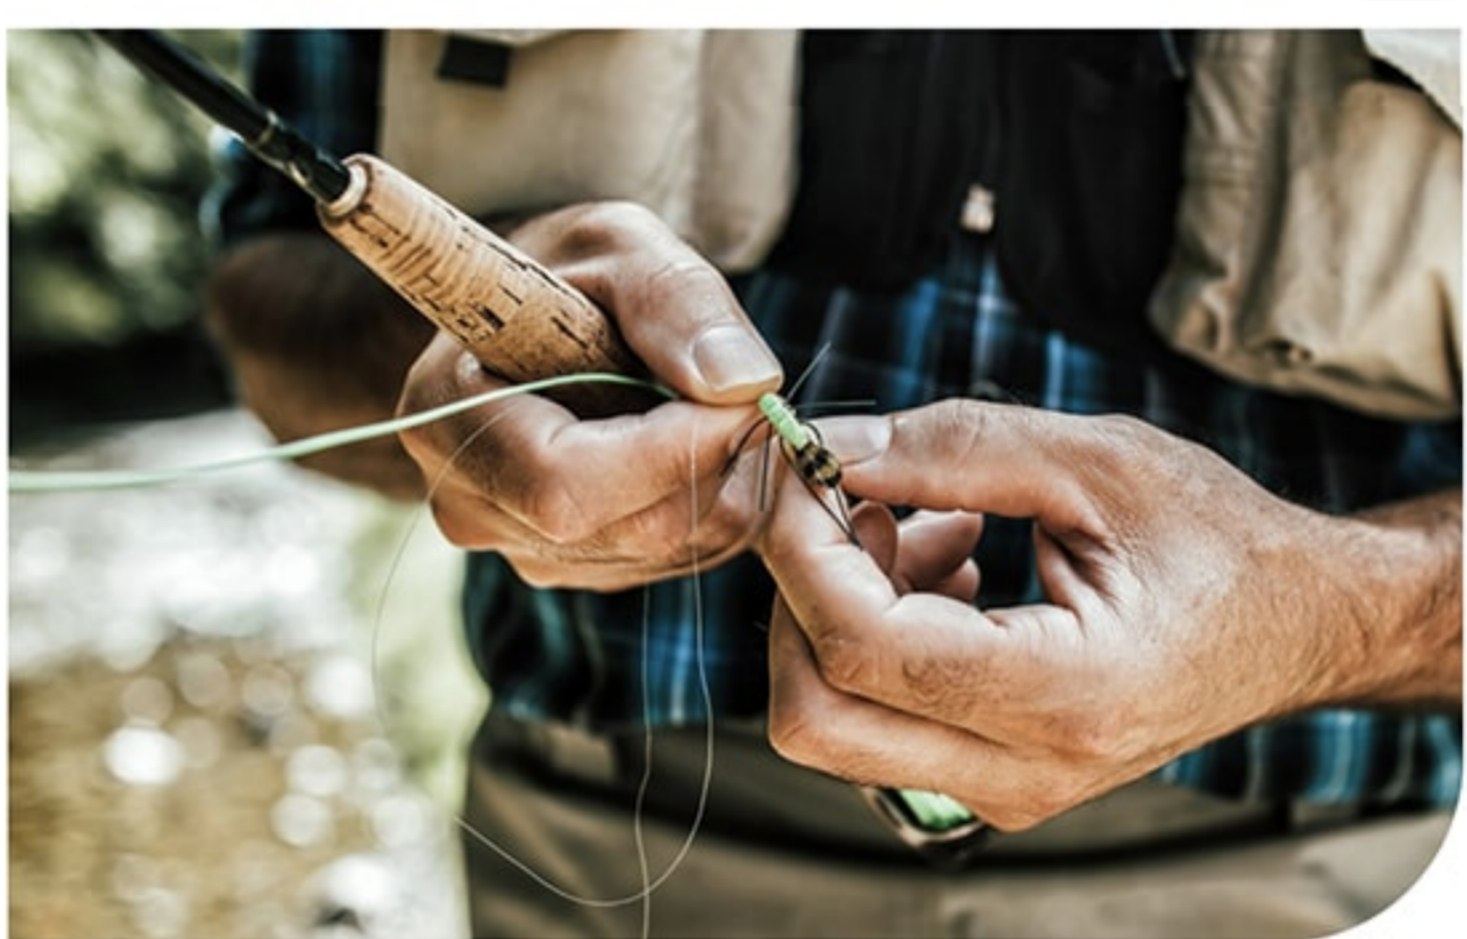

Bifocals and progressives are there when you need them, but they're also there when you don't. When it's time to mark that scorecard, SportSpec is there to help keep track and when it's time to change gears to tee-off — its adjustable low-profile design keeps your vision clear and your eye on the ball.

Maintain your game without interruption, with clear vision that's always on-deck. With SportSpec, swapping specs is a thing of the past.

NO MORE FISHING FOR GLASSES

Keep your focus on fishing and not on fumbling about for bifocals or your favorite lure. SportSpec is there to give your vision the boost it needs for everything up-close, shoreside, or in the boat — without the worry of casting off another pair of glasses. While they won't organize your tackle box, they'll certainly become essential within it.

RIGHT UNDER YOUR BRIM

## CONVENIENCE AND CLARITY

SportSpec's compact design allows it to fit seamlessly under your hat's brim, unnoticed when not in use. The sleek profile allows it to be used with the sunglasses or prescription glasses you're already wearing.

When it's time to focus up close, simply flip the lens down to zone-in on your task at hand.

### CLIP

Simply clip SportSpec onto the brim of your favorite hat.

### FLIP

When your vision could use an assist, flip your SportSpec down.

### FOCUS

Adjust for clear vision, knowing it will stay exactly where you position it — every time.
